

HEARING AID RANGE

We have a hearing aid for every budget, from £995 for a pair of hearing aids in our budget range, up to £4,540 for a pair in our Prestige Blue Diamond collection. Plus our Exclusive Beltone Range from £3455 to £4999 for a pair. Ask your Amplify Audiologist for further details.

BLUE DIAMOND

Prestige

Aimed at those with a zest for life who are on a road of discovery, so need an extra level of prestige to help them live life to the full. With ground-breaking AI features, these most dynamic of hearing devices not only mimic how your brain would hear sound without any hearing impairment, they can also convert speech into text and translate 16 spoken languages. Great for worldwide travel or keeping in touch on zoom calls! With all the benefits of Diamond, including alerts, and so much more.

DIAMOND

Elite

Aimed at those who believe life is an adventure and want to make the most of every opportunity. With all the joys of Artificial Intelligence (AI) available from today's hearing devices, for the very richest of listening experiences, whether you're at home, the Opera or a local concert. Specialist technology to suit the most musical of ears. Clear speech recognition in any environment at home, work, leisure or travel. At this level you benefit from virtual assistance, medication reminders and lifesaving fall detection and alerts to notify your emergency contacts.

SAPPHIRE

Active

Aimed at the most socially active person or someone who simply wants one of the best and latest hearing devices available. With a superior level of technology and the most advanced noise control and fully automatic features, these are suitable for all environments, from 1-2-1s through to the most demanding cocktail party or drinks gathering. Best in class for the ever-raging TV sounds, great for conversations in the car and for very noisy environments.

EMERALD

Social

Aimed at the socially active and independent person - someone who finds themselves in more complex environments regularly. This level of technology has advanced noise control, automatic adaptation and directional features. For effective use outdoors and around the home, when watching TV, having dinner around the table, as well as in small and large groups at family and friend gatherings, in coffee shops, restaurants, supermarkets and meetings.

RUBY

Family & Friends

Aimed at the more active and independent person. This level of technology has an element of noise control and automatic directional settings. Ideal for use in all home environments, but also for when there are competing sounds, like when walking outdoors, in coffee shops, in small groups, supermarkets, church, theatres and at family and friend gatherings.

ESSENTIAL

You

Aimed at the most quiet of lifestyles. Ideally suited to quieter environments like 1-2-1 conversations, talking on the telephone and watching television.

BASIC

Entry level, programmable, digital technology to boost all sounds.

All our hearing aids include FREE aftercare for the lifetime of the hearing aid, and warranty options of 2,3,4 and 5 years. We also offer a 60-day moneyback guarantee (a consultation fee may still apply, please check with your individual Audiologist prior to ordering).
